- MongoDB
- Mongoose
- PostgreSQL
- Postman
- Bootstrap

PROFILE

As a product manager, I realized visions of what products could be. The most fun I had was working with the engineering team. I need to know exactly how things work and love meeting new data models. I became a developer so that I can realize bigger visions and build technology to move the world forward.

EXPERIENCE

SOFTWARE ENGINEERING FELLOW

GENERAL ASSEMBLY | SAN FRANCISCO | FEBRUARY 2020 - MAY 2020

- 12 week, 500+ hours, full-time software engineering immersive course

RUSSIAN RIVER FLOATIES | 11 DAYS | MAY 2020
